

Please amend the subject application as follows:

**IN THE SPECIFICATION**

Please insert the following after the paragraph beginning at page 3, line 21 and ending at page 3, line 22 (before the heading "DETAILED DESCRIPTION OF THE PREFERRED EMBODIMENTS"):

--FIG. 10A is a sectional view of a color filter panel according to an embodiment of the present invention;

FIG. 10B is a sectional view of a color filter panel according to an embodiment of the present invention;

FIG. 11A is a layout view of a color filter panel according to an embodiment of the present invention; and

FIG. 11B is a layout view of a color filter panel according to an embodiment of the present invention.--

Please amend the paragraph beginning at page 8, line 12 and ending at page 8, line 17 as follows:

--In the above embodiments, both the projections and the openings are provided on the TFT array panel. However, the projections may be provided on a color filter panel opposite to the TFT array panel, and the openings alone may be provided on the TFT array panel. Furthermore, the openings alone may be provided on both the panels. In this case, the planer shapes of the projections or the openings may be the same as those of the first to the fourth embodiments. For example, referring to FIGS. 10A and 11A, a color filter panel includes a substrate 110 and a

common electrode 120 formed on the substrate. The common electrode 120  
includes projections 171. Referring to FIGS. 10B and 11B, a color filter panel  
includes a substrate 110 and a common electrode 120 formed on the substrate.  
The common electrode 120 is shown including an opening 181 dividing portions of  
the common electrode 120.--
